

KODY MORRISON

Moray, Scotland | kodymorrison3@gmail.com | [GitHub](#) | [Portfolio](#)

PROFILE

Computing Science student (HND, A grade) progressing onto a BSc (Hons), with hands-on experience building and deploying full-stack web applications using PHP, MySQL, JavaScript and modern front-end tooling. Comfortable across the stack, from database design to secure server-side validation, with a security-conscious, detail-oriented approach. Backed by two-plus years of customer-facing retail experience, bringing strong communication, reliability and problem-solving to any team.

PROJECTS

Portknockie Motorcycle Dealership

PHP · MySQL · JavaScript · CSS | [Live site](#)

- Built a dealership system handling motorcycle inventory, customer workflows and a multi-step test ride booking process with real-time availability checking and server-side validation.
- Deployed and maintained live; also developing a companion native iOS app for the dealership in Swift and Xcode.

Portknockie Motorcycle Repairs & MOT

PHP · MySQL · HTML · CSS

- Full-stack HND graded-unit project covering booking, e-commerce checkout, an admin panel, staff scheduling and payroll generation.
- Implemented CSRF protection, prepared statements and output escaping; backed by a full test document covering around 55 test cases.

Fiverr Web Template

PHP 8.1+ · MySQL · HTML · CSS · JavaScript

- Designed a reusable, provider-neutral website template as a foundation for service-business sites, rather than one-off client work.
- Included responsive layouts, configurable themes, booking availability, an admin system, CSRF protection and a provider-neutral email layer.

EDUCATION

BSc (Hons) Computing Science - University of the Highlands and Islands, Elgin *Sept 2026 - Present*

HND Computing Science - University of the Highlands and Islands, Elgin *Sept 2025 - May 2026*
A grade — Completed

HNC Computing Science - University of the Highlands and Islands, Elgin *Sept 2024 - June 2025*
B grade

TECHNICAL SKILLS

Programming / Web

- PHP
- JavaScript
- HTML & CSS
- Vue, Nuxt & Tailwind CSS
- Swift (iOS)

Databases

- MySQL
- Database design & schema management

Software Development

- CSRF, XSS & session security
- Server-side validation
- Software testing & documentation
- Admin & multi-step workflows

Tools

- Git & GitHub
- Xcode
- XAMPP (local dev)
- MAMP (local dev)
